SUMMARY

Technical Project Manager with 14+ years of IT experience, including 6+ years leading Agile software delivery for SaaS-based enterprise applications. Proven expertise in project planning, stakeholder management, sprint execution, release governance, resource planning, and cross-functional team leadership.

Strong engineering background combined with project management experience enables effective collaboration between business and technology teams to deliver scalable digital solutions. Familiar with Generative AI, Agentic AI concepts, and AI-driven workflow automation, with a keen interest in applying emerging technologies to enhance product delivery and operational efficiency.

EDUCATION

U.P. Technical University, Lucknow

Bachelor of Technology (B.Tech) – Computer Science & Engineering

EXPERIENCE

Technical Project Manager

Apr 2021 – Jul 2025

Global Reach Education

- Managed end-to-end delivery of multiple CRM modules from planning through production deployment.
- Led Agile delivery for cross-functional teams of 20–25 members, including developers, QA engineers, UI/UX designers, business analysts, and DevOps engineers.
- Facilitated sprint planning, backlog refinement, daily stand-ups, sprint reviews, retrospectives, and release planning.
- Partnered with product owners and business stakeholders to prioritize features based on business value.
- Managed project scope, delivery schedules, risks, dependencies, and change requests throughout the project lifecycle.
- Coordinated User Acceptance Testing (UAT), production releases, and post-production support.
- Planned resource allocation, capacity forecasting, and sprint commitments to ensure predictable delivery.
- Improved communication between engineering and business teams through structured governance and Agile best practices.
- Mentored engineering teams and supported continuous process improvement initiatives.
- Explored opportunities to leverage AI-driven automation and emerging Agentic AI concepts to improve delivery efficiency.

Engineering Manager

Apr 2020 – Mar 2021

Global Reach Education

Led the delivery of a cloud-based SaaS Education CRM Platform supporting the complete student admission lifecycle across international education operations.

Team Lead

May 2016 – Apr 2020

Unica Solutions Pvt. Ltd.

- Led software development teams delivering enterprise web applications.
- Managed sprint execution, task assignments, technical mentoring, and delivery planning.
- Conducted code reviews and maintained engineering quality standards.
- Coordinated with clients and internal stakeholders to ensure successful project delivery.
- Supported architecture discussions and solution planning for scalable applications.

Senior Software Engineer

Nov 2013 – Feb 2016

Czone Technologies Pvt. Ltd.

- Designed and developed scalable enterprise web applications.
- Optimized application performance and database design.
- Mentored junior developers and promoted coding best practices.
- Collaborated with cross-functional teams to deliver high-quality software solutions.

Software Engineer

Oct 2012 – Sep 2013

Momentum Controls Software Pvt. Ltd.

- Developed enterprise software applications and database solutions.
- Implemented software enhancements and performance improvements.
- Worked closely with development teams to achieve project milestones.

Software Engineer

Sep 2010 – Oct 2012

Great Net Solutions

- Developed and maintained web applications.
- Resolved production issues and enhanced application performance.
- Participated in feature development, testing, and maintenance activities.

Software Support Engineer

Apr 2007 – Dec 2008

HCL Infosystems Ltd.

- Implemented software solutions for government departments.
- Conducted user training and post-deployment support.
- Collaborated with stakeholders to improve reporting and operational efficiency.
