

PRAMOD KUMAR

Technical Project Manager | Delivery Lead | Agile Project Manager | SaaS | ERP | CRM
Noida | +91 7827736456 | yy.pramod@gmail.com | Location: Noida, India

PROFESSIONAL SUMMARY

Technical Project Manager / Delivery Lead with 14+ years of IT experience, including 6+ years leading enterprise software delivery across SaaS, CRM, ERP, EdTech, Finance, Data Migration, Cloud Migration, System Integration, and Digital Transformation initiatives. Proven expertise in driving end-to-end project execution, Agile/Scrum delivery, stakeholder management, roadmap planning, release management, capacity planning, budget management, vendor coordination, risk and dependency management, and leading cross-functional teams to deliver business-critical solutions on time, within scope, and aligned with strategic objectives.

CORE COMPETENCIES

Project Planning & Delivery • Agile/Scrum • Stakeholder Management • Project Governance (RAID, RACI) • Roadmap & Release Management • Resource & Capacity Planning • Budget Management • SDLC • Cross-functional Leadership • Collaboration Tools (Jira, Confluence, Slack)

PROFESSIONAL EXPERIENCE

Technical Project Manager – Global Reach Education (Apr 2020 – Jul 2025)

- Led delivery of a SaaS Education CRM platform supporting international education operations across 50+ countries.
- Managed cross-functional Agile teams of up to 25 members.
- Successfully delivered 35+ production releases using Agile methodologies.
- Managed up to 3 concurrent projects while balancing scope, timelines and resources.
- Owned sprint planning, backlog refinement, roadmap planning, UAT, release management and production deployments.
- Managed stakeholders, risks, dependencies and capacity planning.

Key Projects

1. Education CRM – SaaS Platform

Led end-to-end delivery of an enterprise Education CRM platform covering Student Onboarding, Counsellor Management, Branch Operations, Visa Processing, University Enrollment, Mentor Portal, Application Management, Appointment Management, and Reporting Dashboards.

2. Data Migration Project

Managed end-to-end data migration initiatives involving requirements analysis, source-to-target mapping, data validation, cleansing, testing, UAT coordination, dependency management, and production migration with minimal business disruption.

3. Cloud Migration Project

Coordinated cloud migration activities across cross-functional technical teams, including migration planning, environment readiness, dependency tracking, risk management, testing, release planning, and production cutover.

4. System Integration Project

Led integration initiatives involving APIs and third-party systems, coordinating requirements, development, QA, integration testing, UAT, defect resolution, release planning, and stakeholder communication.

5. Digital Transformation Initiatives

Managed technology initiatives focused on process automation, workflow optimization, system enhancements, and improved operational efficiency, working closely with business and technical stakeholders throughout the SDLC.

6. Finance / Payment Integration Project

Coordinated payment-related technology initiatives involving API integrations, transaction workflows, error handling, testing, UAT, release management, and cross-functional dependency management.

7. Generative AI Initiatives

Led and supported Generative AI-driven initiatives focused on process automation, intelligent workflow enhancement, prompt engineering, and integration of AI capabilities into existing systems to improve productivity, decision-making, and user experience.

Unica Solutions – Team Lead (2016–2020)

Led software delivery, mentoring and client coordination.

Czone Technologies – Senior Software Engineer (2013–2016)

Designed scalable enterprise applications.

Momentum Controls – Software Engineer (2012–2013)

Great Net Solutions – Software Engineer (2010–2012)

HCL Infosystems – Software Support Engineer (2007–2008)

TOOLS & TECHNOLOGIES

Technical & Project Management Skills

Project Management & Delivery: Agile, Scrum, Kanban, SDLC, Project Planning, Roadmap Planning, Release Management, Risk & Dependency Management, Stakeholder Management, Capacity Planning, Vendor Management

Project Management Tools: Jira, Confluence, Microsoft Project

Cloud & Infrastructure: AWS, Azure

APIs & Architecture: REST APIs, Microservices, FastAPI

Programming & Scripting: Python, JavaScript

Databases: MySQL, PostgreSQL

DevOps & Version Control: Git, GitHub, CI/CD

AI & Emerging Technologies: Generative AI, AI Prompt Engineering

EDUCATION

B.Tech in Computer Science & Engineering, U.P. Technical University, Lucknow
